Note 1

Quote only covers products and services listed herein. Quote is valid only through the expiration date indicated herein and only if all listed items are purchased as a package. Products and services as interpreted by Spillman Data Systems, Inc. No feature, function or characteristic not described herein is implied. Applicable taxes are not shown.

Note 2

It will be the customer's responsibility to provide cabling, installation and port setup to ensure data from the 911 equipment is being received by the host computer. It must meet the standards as outlined in the Spillman E911 Interface Policy (PD3). Spillman Data will provide a software command to run on the host computer that will ensure data is being received by the host computer system from the 911 equipment.

*Paul,
Here is another add-on
module.

SPILLMAN Software Maintenance/Support Costs for 2nd year

Basic Support, second year: \$544

The cost of renewal of the Software Maintenance/Support Agreement for the third year and thereafter will be based on percentages current at Spillman Data Systems at the time of renewal.

If the customer is under a basic service agreement but must call after standard working hours, support will be given but will be charged at an hourly rate specified on the current Spillman Data Systems fee schedule. Rates subject to change.

Payment for Goods

The total fee, as set forth in an SDS Software Order, shall be paid to SDS according to the following schedule:

Software price	Upon installation of software on Licensee's computer
Fees for services	Upon completion of the service
Equipment price	Upon delivery of each equipment component to Licensee's site
